### **DETAILED ACTION**

Receipt of applicants' response to the restriction and species election requirements is acknowledged. Applicants elected group VII wherein the W is a heterocyclic moiety other than those defined in group I-V, and elected 2,3-difluoro-6-[1,3,4]oxadiazol-2-yl-phenyl)-(4-iodo-2-methyl-phenyl)-amine as the elected compound. In view of the broad scope of elected invention, a further restriction requirements is necessary within the elected group VII

#### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - VII. Claims 1-31, drawn to a method of treating pain by using the compounds with formula (I), wherein W is defined as formula (i), wherein X<sub>1</sub> is O or S, classified in class 514, subclass 361, 363.
  - VIII. Claims 1-31, drawn to a method of treating pain by using the compounds with formula (I), wherein W is a heterocyclic moiety other than those listed in groups I-V and VII, classified in class 514, subclass 183.
1. The inventions listed as Groups VII and VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the inventions are directed to the employment of compounds with distinct structures and lack a special technical feature. They therefore do not represent a single general inventive concept.

Note elected species would read on group VII.

It is merely noticed that, in the pending claims, X in formula I has not been defined. It is assumed that X is NH.
